

Montague Coaching Director Report

20205-2026

This season we had a mix of experienced and new coaches. It is great to see the continued interest in coaching, especially from previous Montague association players! It was overall a successful year, with not too many concerns or challenge. An identified need of increased education going forward is on concussion management and return to sport protocol. It was another excellent year for our Junior Coach program with great participation and feedback, and we will continue to invest in this program. We have had discussions with RPEI on the need for increased communication with regards to the Coach Initiation in Sport certification and we will continue to collaborate with RPEI on how we can successfully support new coaches.

Respectfully,

Janessa
